## Mechatronics Engineering Student

A dynamic **Robotics and Mechatronics Engineering** student seeking internship opportunity where it will enable me to apply my problem-solving, communication skill and technical knowledge in professional working environment.

## Skills

| | | |
|---|---|---|
| **Programming** | : | MATLAB, Python, C++, Embedded C, Assembly |
| **CAD** | : | Solidworks, AutoCAD |
| **Electronics** | : | Arduino, MultiSim, Soldering, Microcontrollers |
| **Dev Tools** | : | Visual Studio Code, CodeWarrior, Git, Linux |
| **Soft Skills** | : | Problem-solving, Communication |
| **Language** | : | English, Swahili, Arabic |

## Experience

**Student Mentor** — Aug 2022 – Sep 2022
*Chumbaka* — *Kuching, Sarawak, Malaysia*

- Acted as a Mentor to Highschool students in a **Robotics competition**
- Guided them through Arduino code implementation, coding and writing the reports

**Farm Manager** — Apr 2019 – Sep 2019
*Kanam Farm* — *Kanamai, Kenya*

- Assisted farmers and ensured all staff adhere to **safety regulations**
- Analyzed existing operations, crops and financial documents
- Enhanced skills in Customer Service, **teamwork** and communication skills
- Regularly used product knowledge to meet customer's needs

## Education

**Swinburne University of Technology Sarawak** — Kuching, Sarawak, Malaysia
*Bachelor of Engineering (Honours) (Robotics and Mechatronics)* — *Jan 2020 – July 2024*

## Projects

**Microcontroller-Based Calculator** — *Embedded C, Assembly - Nov 2022* — Portfolio

- Utilized breadboarding, Real-time Microcontroller and programming to design and implement a Digital Calculator
- Optimized Nokia 6100 LCD Screen and Keypad for **display and user experience**
- Utilized **sensors and buzzers** to enhance realness and feedback to user
- Deployed on GitHub pages via GitHub Actions

**CyberMask Project** — *Solidworks, FEA Analysis - Jun 2021* — Portfolio

- Designed a futuristic strapless mask as part of a group project using Solidworks
- Created multiple part files using Solidworks, assembled them
- Performed **Static study**, **Design Study** and **Topology Study** to the design on Solidworks Simulation

## Referees
